

Students

Placement of Twins in Kindergarten

Morton District 709 places kindergarten students based on their unique individual needs. In doing so, the following factors are considered:

- Student's developmental needs as determined through kindergarten screening.
- Teacher recommendation
- Parent input
- Program structure

Ultimately, the Principal is responsible for considering all factors and placing the student. A review of the placement decision will be made at the end of the kindergarten year to determine the best course of action for placement of students in 1st grade.
